

From January 2011 onwards, ESPC will be issuing monthly house price reports covering a three month rolling period. These reports will be produced in the same format as the previous quarterly house price reports, allowing a greater depth of analysis to be provided for Edinburgh, the Lothians and Fife on a more frequent basis. The monthly average house price figure for Edinburgh will still be available from the Historical House Price Data spreadsheet in the Market Watch section of espc.com.

Report	Date of issue
